GELLIVS Bernardinus Marmita parmienfis. Eminentiffimo ac humaniffimo
D.D. Guilmo de rupeforti magno Cancellario francie. S.D.

Aiores nostri quocunque studio industria aut uirtute confecti fuerant in omne ad utrum hominum tribuatur quibus omnibus prodesse utrumque liberale officium fecit laborum putabant. Quod quidem mihi hoc tempore faciendum esse duxi non ipse aliqua commendat amore & studio honestatis: quid uigilantius bonarum artium disciplina ipse professus omnibus libenter impartiri uelim. Itaque has clementissime quas superioribus animis dum publice profiteretur forte indigebat inconduque an notauimus te hortante nunc impendenda dedimus me quasi fub aliis tuis pro te gerentibus putali uidelicet indulgentia tua munito facto iuramentum in regno feci. Regis francorum ne quis post me hoc idem opus ad quoddam annum simpliciter praestaret & quod humanus empoliticus es mihi si quid actis nostri inde imminutum fuerit ad omne mihi regia pecunia refarcitum sit. Quae res efficit ut ceteros quod tibi gratum esse duxi agnoscere licet grande onus uoluntate potius & gratuite ad doctrina frenis pro ornatus mihi succet. Non possum equidem tacitus praeterire quod tibi placere scio ob tuas praefatissimas uirtutes quos te non modo his quos nostra aetas tulit sed his omnibus quos priorem uoluntate laudat: antepono. Nihil est perditus in hoc aetateque gratius est te debeat optatus esse postquam de bonis bene mereris: quod me quoque mo do meriti erit semper tamen meae curae & uoces habebunt. **I**uuenis sciam quod quae non delicturos homines quidam

Conspicitur Barcha qui tunc habet
et dicitur. Capitulum primum.

In principio creatus domus celis et terrarum. Terra autem erat inanis et voida: tenebre erant super faciem abyssi et spiritus dei ferebatur super aquas. **Et dixit dominus:** fiat lux. Et facta est lux. Et vidit dominus quod esset bonus: et coelestia loca et tenebrae et appellationes lucis dicit tenebris noctis: et filius dei voluit et manne coelo misit. **Dixit**
